Patrick Neu skillfully captures the essence of his chosen subject by using strong compositions combined with carefully selected photographic techniques. He succeeds in revealing his subject's uniqueness by creating a strong balance between the visual and the emotional impact. His fascination with nature's design, its use of symmetry, colours and intricate details is apparent in his work.

Patrick Neu was born in 1965 in Saarland in the South West of Germany. Growing up surrounded by forests & lakes; he developed his appreciation for nature and passion for photography at a very early age. He took his first photographs at the age of 5, owned his first camera at 8 and was processing and printing his own work, both B&W, RA4 prints and cibachromes at 14. Neu came to Australia in 1989 completed a BA in Photography at RMIT in 1994 and has been living and freelancing in Sydney since 1995.

Art2Muse

A vibrant online art gallery

Art2Muse is a vibrant online art gallery which represents 45 established Australian artists carefully selected by a wide range of experienced consultants for their exceptional artistic talent and technical expression. Art2Muse has been operating for six years and was established by Katrina Hampton who combines her background in marketing with passion for art.

We attract artists and the lovers and acquirers of art making it immediately and internationally available through the website. The fact that we have an online environment plus a physical environment gives us the unique flexibility to physically mirror our online presence. For gallery exhibitions we match dynamic venues with affiliated partners and tailor specific events around an artistic component for large corporations to invite high level guests. To fulfill our social responsibility, not only does Art2Muse donate to charity we also act to generate events to raise money for various charities.

Art2Muse offers a convenient service. Viewers can sign up for artists they are interested in to be sent catalogues and invited to see the artworks in the flesh at various exhibitions or at the artist's studio. Our long term associates of artists, buyers and businesses love our value proposition. We aim to build a larger community affiliated with the arts and to launch Art2Muse internationally in 2008. Our long-term goals are to offer Art2Muse to countries in which artists don't have the means necessary to express their art, whether the constrictions are economic, cultural or political.

Our range includes:

- Paintings
- Photographs
- Sculptures
- Works on Paper
- Mixed Media
